

AHMAD BAEHAQI

Indramayu, West Java, Indonesia | LinkedIn: Ahmad Baehaqi | +62 821 – 2857 - 4180 | Email: ahmadbaehaqi008@gmail.com

A Bachelor's degree graduate in Informatics with experience as a Fullstack Web Developer using Laravel, React, and Node.js. Experienced in end-to-end system development on real-world projects such as business travel administration systems and educational platforms, with a focus on building RESTful APIs, database management, and responsive, user-friendly UI development. Also experienced as a Quality Assurance Engineer in application testing and bug analysis, as well as a leadership background as the head of a student organization. Comfortable working in cross-functional teams to deliver effective, scalable, and high-quality digital solutions.

EDUCATION

Bachelor of Informatics, Universitas Mercu Buana Yogyakarta 2021-2025

- **Thesis Title** : Electric Vehicle Recommendation System Using the Simple Additive Weighting (SAW) Method.
- **GPA** : 3.81 / 4.00
- **Achievements** : 1. 1st Place in Student Creativity Proposal Writing Competition at FTI Got Talent 2022.
2. Received funding support from the Matching Fund Program (PDP) in 2024 as part of the implementation team in collaboration with lecturers from Universitas Mercu Buana Yogyakarta.
3. Ranked 2nd as the Outstanding Graduate at the university level of Universitas Mercu Buana Yogyakarta in 2025.

WORK EXPERIENCE

Universitas Mercu Buana Yogyakarta Sept 2022 – Jan 2025

Teaching Assistant – Informatics Study Program

- Ensured the smooth execution of practical sessions by preparing the work environment, software, and supporting learning materials.
- Assisted lecturers in delivering practical course materials for Algorithms and Programming.
- Guided students in programming practice and system implementation based on course materials and relevant case studies.
- Evaluated practical assignments, corrected tasks and reports, and provided constructive feedback.
- Conducted final project-based examinations using real-world case studies to assess students' understanding and application of the material.

PT. Gamatechno Indonesia

Quality Assurance Engineer

Feb 2024 - Oct 2024

- Designed user flow scenarios for projects including Gadjah Mada Medical Center (GMC), Jakarta Industrial Estate Pulogadung (JIEP), Santri Application, and Besigma Application, covering user interactions, core features, and navigation.
- Performed comprehensive testing of user flows for GMC, JIEP, and Santri applications, including functional testing, navigation testing, and user experience evaluation to ensure optimal performance.
- Documented test results for GMC, JIEP, and Santri applications based on test scenarios, including bug findings, functionality evaluation, and improvement recommendations.

Help Desk

Oct 2024 – Mart 2025

- Provided appropriate solutions to user/admin issues in the Worxspace application.
- Handled user/admin inquiries, suggestions, and complaints via phone and WhatsApp chat.
- Coordinated internally with the technical team for issues requiring technical assistance.
- Created regular reports on handled issues and provided solutions.

CV. Asa Multimedia

Web Developer – Internship

Jun 2024 - Dec 2024

- Contributed to the development of a mathematics education web application aimed at reducing learning anxiety.
- Developed full-stack features using Laravel 10.
- Designed responsive and user-friendly UI.
- Managed and integrated MySQL database.
- Developed and optimized server-side application logic using PHP.
- Collaborated throughout the development lifecycle: planning, implementation, and testing.

Ministry of Marine Affairs and Fisheries (MMAF), Republic of Indonesia

Web Developer – Internship

Nov 2025 - Mei 2026

- Developed a web application for official travel and assignment letter management to improve administrative efficiency.
- Built a full end-to-end system using Laravel 12 as the backend and React as the frontend.
- Implemented business logic using PHP, including submission, approval, and travel monitoring workflows.
- Designed and developed responsive and interactive UI to enhance user experience.
- Managed and integrated data to ensure accuracy and consistency.
- Developed features for generating, printing, and exporting documents to PDF from user input data.
- Optimized application performance and ensured data security.

ORGANIZATIONAL EXPERIENCE

Chairperson – Faculty of Information Technology Student Executive Board

Jan 2024 – Jan 2025

Chairperson – Informatics Student Association (HIMAKA)

Dec 2022 – Dec 2023

- Led and coordinated team members and organization committee activities to achieve organizational goals.
- Participated in strategic decision-making processes for organizational development and student interests.
- Established relationships with external stakeholders, including university representatives and companies, to support student initiatives.
- Represented student voices in university policy discussions and issues affecting students.
- Facilitated mediation processes to resolve organizational problems and conflicts.
- Ensured the completeness of administrative documents and maintained organizational continuity.
- Represented students in various forums at university and external levels.

Informatics Student Association (HIMAKA)

Dec 2021 – Dec 2022

Public Relations Coordinator

- Maintained and enhanced the reputation of the Informatics Study Program organization.
- Designed effective communication strategies to deliver organizational messages to relevant stakeholders.
- Organized various events and activities involving the organization.
- Established and maintained partnerships with internal and external institutions.

National Association of Informatics and Computer Students

Dec 2021 – Dec 2022

Research and Development Division Member (LITBANG)

- Planned and developed research and development programs.
- Conducted research and development activities.
- Disseminated research and development outcomes to relevant audiences.
- Contributed to improving organizational capacity in the field of research and development.

CERTIFICATIONS & PROGRAMS

- | | |
|---|----------------------------|
| • MSIB Batch 6 – Fullstack Web Developer | Feb 2024 – Jun 2024 |
| • MSIB Cohort 6 – Independent Study | Jun 2024 |
| • Intern – CV. Asa Multimedia | Jun 2024 – Dec 2024 |
| • Intern – Ministry of Marine Affairs and Fisheries (Republic of Indonesia) | Nov 2025 – Mei 2026 |

PROJECTS

- **Thesis** – Electric Car Recommendation System (Full Stack)
Built a web-based electric vehicle recommendation platform using the Simple Additive Weighting (SAW) method with Laravel 11 framework.
- **Course Project**– Mental Zone Application (Front-End)
Developed a mental health system application using CodeIgniter 3 framework.
- **Internship Project** – Joymath Application (Full Stack)
Built an anxiety-free mathematics learning platform using Laravel 10 framework.
- **Internship Project** – Ekan Application (Full Stack)
Developed a business travel management system using Laravel 12 framework.
- **Project Output** – Umrah & Hajj Travel Application (Full Stack)
Built a travel platform for Umrah and Hajj services to improve business processes at PT. Syafaat Harapan Umat using Laravel 12 framework.

TECHNICAL SKILLS

- **Hard Skills** :Frontend (HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS), Backend (PHP, Node.js, Laravel, Python), Databases (MySQL, PostgreSQL, Oracle), API (REST API), Version Control (Git).
- **Soft Skills** :Leadership, Communication, Problem Solving, Adaptability, Teamwork, Time Management, Critical Thinking.
- **Tools** :Microsoft Word, Microsoft Excel, PowerPoint, Figma, Visual Studio Code, XAMPP, Laragon, DBeaver, GitHub, Postman, Oracle SQL Developer.
